About us:

Kazi Food Industries Limited (KFIL) is a venture of the Kazi Farms Group. It started its journey in 2013 with the vision to be the most trusted consumer food company in Bangladesh.

At present, KFIL has three major brands – Bellissimo premium ice cream, Za 'n Zee ice cream and Kazi Farms Kitchen branded food (chicken, flour and fish-based frozen food items, branded eggs, bakery items, dried fish, jam and jelly). Kazi Farms Kitchen (KFK), initially launched by KFIL as a frozen food brand in 2014, has become one of the leading brands in this category in Bangladesh and branched out into non-frozen food and bakery items. Kazi Farms Kitchen also has a network of franchised Quick-Service Restaurants (QSRs), ranging across more than 150 outlets in more than 37 cities in Bangladesh.

KFIL has entered the export market in the year of 2019, and has so far exported its flour-based products and frozen vegetables to the UK, the USA, Saudi Arabia, Canada, Japan, South Korea and Italy. KFIL is a halal and ISO/HAACP certified company and is registered with the FDA for the US market. KFIL's factory is located in Ashulia, Dhaka and corporate office in Dhanmondi, Dhaka.

KFIL remains committed to deliver food products of the highest quality to consumers.

Vision: To be the most trusted consumer food company in Bangladesh.

Mission: To provide consumers with a diverse range of food products that are delicious, hygienic and affordable.

Vegetable-Fed Chickens

At Kazi Farms Kitchen, chickens are raised on feed that does not contain any MBM or Meat and Bone Meal (also simply known as 'slaughterhouse waste'). That is why our chickens do not run the risk of containing any harmful bacteria.

No Harmful Preservatives

Certain preservatives used in food products can be severely harmful for human health. Kazi Farms Kitchen products do not contain any harmful preservatives.

No Antibiotic Residue

In poultry farms chickens are sometimes given antibiotics to treat bacterial infections. When people eat farmed chickens or products made from those chickens, they unknowingly consume "residual" antibiotics, which may still have been in the chicken's body at the time of slaughter. This may end up building resistance to antibiotics in the human body. We guarantee that there are no residual antibiotics in Kazi Farms Kitchen products.

No Tasting Salt

We do not use food additives such as "Monosodium glutamate (MSG)" in our products.
